1. The Archaeological Site Inventory (ASI) does not include all of the archaeological sites, mounds, unmarked cemeteries, marked cemeteries, and cultural sites that are present. It includes only those sites that have been reported to the Wisconsin Historical Society. It is estimated that less than one percent of the archaeological sites in the state have been identified.

2. The National Register of Historic Places recognizes properties of local, state, and national significance. The Wisconsin State Register of Historic Places also recognizes significant historic sites. Properties are listed in the National and State Register because of their associations with significant historic events, persons, architecture or engineering.
