

State Project ID 5843-00-73
CTH V
Okee – Harmony Road
STH 113 – Rapp Road
Columbia County

Update Date: **November 7, 2019**

Weekly Project Update

General Project Information –

The project will reconstruct CTH V in Okee from STH 113 to the east end of the causeway. CTH V will be realigned at the STH 113 intersection and Shamrock Road/Old Sauk Road to improve geometry. Sidewalk and storm sewer will be installed on the north side of CTH V between Old Sauk Road and Lake Wisconsin, and on the south side between Madeline Summers Park and Lucky's on the Lake restaurant. The bridge deck will be replaced after Labor Day on the structure over the Spring Creek inlet to extend the service life and improve the bridge railing. The railroad crossing on CTH V will be reconstructed and new signals and gates will be installed.

Work this week –

- Finished paving CTH V.
- Installed centerline, stop bars and railroad crossing pavement markings.
- Installed beamguard at the bridge and finished signs along the causeway.
- Opened the CTH V roadway and bridge.

Work scheduled for this fall or next spring pending weather –

- Touch up topsoil and restoration.
- Finish the rest of the pavement markings.
- Repair spall area on a bridge girder when temperatures allow.

Traffic impacts –

- CTH V is open.

Contact information –

- The project field office is located in the vacate lot at the corner of CTH V and Old Sauk Road in Okee.
- Business and property owners can contact the on-site Project Engineer Alex Passow at 715-892-7296, email: apassow@msa-ps.com or the WisDOT Project Manager Greg Brecka at 608-245-2671, email: gregory.brecka@dot.wi.gov.
