

TEST YOUR INTERNET SPEED TODAY!

YOU HOLD THE KEY TO FASTER INTERNET SPEEDS IN COLUMBIA COUNTY!

All of us should have access to broadband for work, school, safety, health and play. But many homes and businesses in Columbia County have slow or no internet access.

Together we can fix that!

The first step is to identify and document the areas with no broadband or limited access to it. That's where you come in.

- To effectively plan new internet buildouts, the State needs as many Columbia County residents as possible to take a simple internet speed test.
- From your home or business, simply visit:
madisonregion.org/test-your-speed/ or snap this QR Code ⇒
- It will only take a few moments and the only required personal information is your address, which is always protected.
- Even if your home doesn't have reliable internet access, you can help. Visit madisonregion.org/test-your-speed/ from a friend's home or local library and click on "Enter an address with No Available Service" to report there is no service at your home or business address.

With this information, we can access grant funding designated to bring broadband to the areas of our community that need it.
